

Pistol Bayonet

PB-1

Installation:

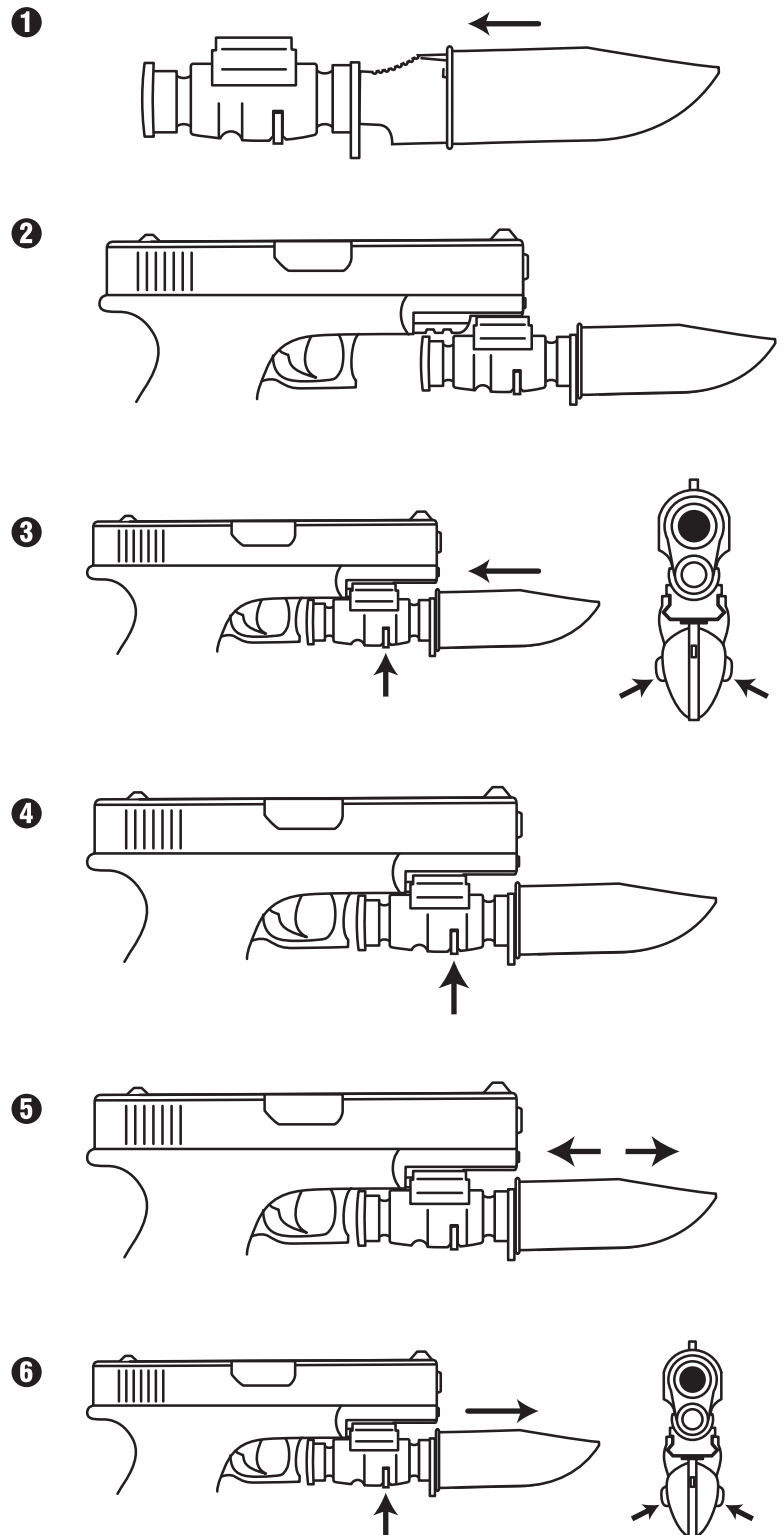

UNLOAD YOUR FIREARM!

- ❶ Install the supplied protective sheath over Pistol Bayonet.
- ❷ Align the dovetail grooves of the bayonet onto the rails on a pistol.
- ❸ Slide the Bayonet onto the pistol while depressing the two buttons.
- ❹ Release pressure on the buttons and the bayonet should lock into place on the rail.
- ❺ Ensure the bayonet is locked into place by giving it a small push or pull.
- ❻ To take the bayonet off the gun, depress the two buttons and pull away from the pistol.

WARNING:

Before shooting with the bayonet mounted make sure it is securely attached to your pistol.

UNLOAD YOUR FIREARM!
